**A CALL FOR ACTION TO STAND FOR TRUTH  
Concerned UP Manila Faculty and Employees**

We, members of the University of the Philippines Manila community, are one with the various sectors of our society in expressing profound concern and indignation on the manner by which the 2022 National Elections were conducted. We cannot ignore the numerous accounts and testimonies from voters of the irregularities they witnessed being perpetrated before, during, and after the election. These include issues with the handling and delivery of official ballots, the discriminatory application of campaign rules, and the orchestrated dissemination of lies and fake news constituting disinformation that have caused confusion among the general population.

We cannot dismiss the many complaints of voters about the breakdown of vote-counting machines (VCMs), which led to the delayed casting of votes and, even the disenfranchisement of many voters who were forced to leave precincts before they were able to cast their votes. It is also troubling to note the numerous accounts of voters who reported being instructed by election officials to leave their ballots behind because defective vote-counting machines (VCMs) prevented them from submitting their votes and obtaining official receipts evidencing their choices.

We are also dismayed by the reports of massive and blatant vote-buying nationwide that occurred weeks before and on election day itself, which numerous groups and individuals have captured on camera.

There have also been serious violent incidents at polling stations, as well as stolen ballot boxes and election paraphernalia.

All of these allegations raise questions about the fairness of the national elections. However, the proper authorities have not made any efforts to investigate any of these irregularities.

We call on everyone in the University to be vigilant in fighting for truth. Relevant authorities need to take the proper action to investigate these allegations and address all concerns that challenge the fairness of the elections. The truth must prevail amid an environment of uncertainty and deceit.

Signed by 276 concerned faculty and employees of the University of the Philippines Manila.
